

2020 CSM Contest Rules

1. **Models that have won or placed at IPMS Nationals, regional's or past CSM events may not be entered, but, may be displayed at no cost**
2. **Pre-assembled or partially-assembled scale replicas and die-cast models are eligible for competition only if, in the opinion of the judges, they contain significant changes in structure, paint scheme and markings so as to represent the handiwork and skills of the modeler, *not the manufacturer***
3. **Entries will be judged using the following criteria: Basic construction, overall finish, additional detailing, authenticity, and degree of difficulty. Scratch built detail will be favored over commercially manufactured detail if quality is comparable. Extra detail will not make up for a poorly constructed model. IPMS National Rules shall be considered as guidelines.**
4. **Contest registrars shall determine the classification of each entry. In the event of questions regarding placement, the Head Judge will have the final decision. The following guidelines will be observed:**
 - a. **Markings will determine service, nationality and civil vs. military usage.**

All dust covers must be removed prior to judging.**
6. **Scratchbuilt, Conversion, & Major Modifications Category:**
 - 6A. **A "Conversion" entry must contain significant structural changes involving extensive changes in contour or configuration. Entries using aftermarket parts or kits to effect the conversion will be included in this classification.**

In the interest of competition, at the judges' discretion, entries in an underrepresented category may be combined into another similar Category. Also, at the judge's discretion, a category may be judged and awarded if the models represented in the category can't be realistically judged because the model types are considered too dissimilar in type.**
